thus, the triggers / views and exceptions are verified successfully.

Task-7 Triggers Views and execution

Aim:- To conduct events, views, exceptions on CRUD operations for restricting phenomenon

- a) To create a trigger in PL/SQL that automatically allows inserts or new record.
- b) To create a view that displays the team+team details.
- c) To write a non-recursive PL/SQL procedure to retrieve even-numerical any tournament.
- d) To create a trigger in PL/SQL that automatically inserts a new record.

Create or drop trigger insert match result
After insert or match
For each Row.

Begin

Insert into match-result
values: - returning default value of pending for
- preresult
END;

To create a view that displays the details of players along with their team details

Sql > create view player+team details AS

SELECT player_name p.teamID p.coachteam

where t.team ID=D.teamID&t.team

name (select t.coach from team t where t.team

ID=D.team ID=P.team (ID) AS teamcaptain

from player p;

Sql >SELECT * FROM player+team details

To write a non-recursive PL/SQL procedure

to retrieve even numbered player IDs

registered for any tournament.
